https://www.linkedin.com/in/kirill-kovalev-517143253

Site:
https://darkcrew.github.io/my_CV/

Education: Belarusian State University of Informatics and Radioelectronics

Specialty: Automated information processing systems

Qualification: IT software engineer

Foreign languages: English (intermediate)

- Front-end developer (development experience 1.5 years), gained experience in online courses and internships in companies. Graduated from Epam online courses on front-end development (html, js, css), also completed Epam online courses on front-end development (react)

- As well I have 5 years experience as a freelance designer with good communication with clients. During this time, I learned to find a common language with customers and competently resolve controversial issues. Thus, I achieved that the customers were always happy with the work performed.

- Also I studied Android development (Java and Kotlin) for 2 years
